PROFESSIONAL SUMMARY:

I am a learner from Generation's Junior Software Developer Bootcamp seeking a software developer position. I graduated from the Faculty of Business Administration, majoring in marketing, which allowed me to develop communication, teamwork, and analytical skills. I am eager to apply my previous experiences and newly developed technical skills to launch my career in the tech sector.

EXPERIENCE:

Generation's Junior Software Developer Bootcamp | May 2022 - Aug 2022

- Learned how to build web applications from React as front-end, Node.js as back end, and MongoDB as a Database
- Final Project: Create an exercise tracker website with MERN Stack and CRUD Project
- The application website is divided into front end using React with React-router and Axios as the main dependency. In the back end, it uses Express to manage RESTful API and uses PassportJS for authentication. Finally, using Mongoose to connect MongoDB
- Learned essential skills for switching careers, such as growth mindset, communication, agile, and teamwork

EDUCATION:

Bachelor of Business Administration, Marketing | Chiang Mai University, Thailand | 2017-2021

- Team Leader of Club Selection Day 2018
 - Designed how the Event will be.
 - Been a timer in the Event.
- Staff of CMU Trekking 2018
 - Assisted in Nursing department with Chiang Mai University Student Union
- Team Member of Social Work Project Group 19
 - Helped to solve the garbage problem around Wat Suan Dok School.
